YOUR TASKS

- Supporting the ARC IT-Staff with administrative tasks.
- Setup, testing, and maintenance of Windows and Linux-based servers.
- End-User IT/Support and Helpdesk.
- Interaction and project coordination with customers.

YOUR PROFILE

- Experience in administration and maintenance of Windows and Linux-based servers and end-users/client systems.
- Technical and analytical understanding.
- Solid knowledge of TCP/IP networking and protocols.
- Solid German and English language skills.
- Ability to organize yourself and work independently.
- Experience in the following areas preferred but not mandatory:
 - Microsoft 365 Administration
 - IT-Automation Tools (e.g. Ansible and Terraform)
 - Experience in containerization technology (e.g. Docker, Kubernetes).
